

## *Acknowledgements*

---

The authors express appreciation to the many individuals who have contributed to the content of this work. In particular, we thank the late Ernest J. McCormick, upon whose work the WRQ is based, for his advice and his willingness to collaborate. We thank the late Robert C. Mecham who was a source of day-to-day inspiration and counsel, and P.R. Jeanneret, whose advice and counsel helps keep the WRQ timely and relevant. We thank John C. Hunt for supporting and encouraging this project from its earliest days and Mark MacAulay for reviewing early drafts of WRQ documentation and for providing helpful suggestions.
